

SL	SUBJECT	CORRECTION POINT	REMARKS
1	Containers	You need to add the container suppliers name, and all the documents should be included under the same suppliers. In the window, the company name should be visible first. Then, when you click on the company name, all container details should be displayed one by one with a serial number and contaier number.	
2	Costomers	You need to add the company's name, and all the documents (Invoice) should be included under the same company. Additionally, a GRV (Goods Return Voucher) should be added.	
3	Costomers	In the customer's account summary, remove the credit limit and add payment received (-) and discount (-), then current due.	
4	Sales	In the sales invoice, after the RATE, you need to add VAT columns. The tax for each item should appear in these columns.	
5	Farm	In the farm project: 1. Remove the crop and add items. 2. Remove the land and add the quantity. 3. Remove the cost and add the rate. 4. Remove the profits column.
